

The Future of PMM

Executive Summary — Pilot Program Results & H2 Engagement Plan

Prepared for Brenda Brown | September 2026 | Chris O'Hara

The Vision: Three Pillars of PMM Excellence

The Book of Work establishes product marketing as a strategic discipline at SAP. To bring it to life across ~500 PMMs, we've defined three pillars — each AI-enabled:

PILLAR 01

Disciplined Operations

Execute with consistency — one set of playbooks, frameworks, and standards every PMM inherits.

PILLAR 02

Connected Community

One culture, shared success — all-hands, AMAs, spotlights, and recognition.

PILLAR 03

Continuous Learning

Real-time sandbox and Labs — hands-on sessions where PMMs apply AI tools to real work.

This Report: The Future of PMM pilot represents the **first Labs cohort** under Pillar 03 — validating the learning journey and AI Labs before scaling to all 500 PMMs.

The Book of Work

What product marketing owns — and where it partners with the teams that execute.

PMM Leads / Accountable (11 Areas)

#	Area	Description
01	Messaging & Positioning	Product narrative, value articulation, persona-level messaging
02	Category Storytelling	Use-case stories and differentiated POV
03	Market Insights & Signal Synthesis	Customer, analyst, competitive insights → recommendations
04	Launch Narrative Inputs	Buyer value, positioning, approved messaging, briefs
05	Adoption & Growth Strategy	Launch, adoption, expansion → business outcomes
06	Customer Profiles / Personas	Personas, buying committees, journey needs
07	Commercialization	Product value, pricing narrative, packaging
08	Launch & Disclosure	Tiering, messaging lock, readiness inputs
09	GTM & Field Readiness	Positioning, objection handling, content for Sales
10	Demo	Demo prioritization, buyer narrative, use-case strategy
11	Customer Reference Strategy	Reference requirements, story priorities

PMM Partners / Supports (8 Areas)

#	Area	Description
01	Marketing Planning	Product priorities, audience insights for Integrated Marketing
02	Campaign Execution	Approved messaging, buyer context for Digital/Field
03	Press & Communications	Product truth, narrative guardrails for PR/Comms
04	Partner & ISV	Partner-facing positioning, business value
05	Pricing Communication	Value narrative, ROI framing, packaging translation
06	Community	Community strategy, audience priorities
07	Learning Journeys	Messaging and content strategy for Learning teams
08	Customer Journey Content	What to say, to whom, and why — packaged at scale

Pilot Results: First Labs Cohort

181	351	73%	9.1
REGISTERED USERS	QUIZ ATTEMPTS	PASS RATE	NPS (0-10)

12-Unit Curriculum → Book of Work Mapping

Unit	Topic	Book of Work Areas
1	The AI Transformation	Foundation for all 19 BoW areas
2	AI & the Buyer Journey	01 Messaging, 06 Personas, 09 GTM
3	Content Strategy for AI	02 Storytelling, 04 Launch Narrative
4	Competitive Intelligence	03 Market Insights & Signal Synthesis
5	Messaging That Lands	01 Messaging & Positioning
6	Always-On Competitive	03 Market Insights, 07 Commercialization
7	Content for Two Audiences	02 Storytelling, 08 Launch & Disclosure
8	GEO & AI Visibility	09 GTM & Field Readiness
9	Segmentation & Sizing	06 Customer Profiles/Personas
10	Buyer Personas & Journeys	06 Personas, 07 Commercialization
11	Skills That Survive	Strategic judgment across all BoW areas
12	Capstone Assessment	Comprehensive validation

What Learners Said

- "I need to change my overall mindset of how to use AI from intern to co-worker."
- "Understanding GEO — SEO does not ensure returns in AI results."
- "How to structure PMM content so AI agents can parse it, quote it, and cite it accurately."

Key Finding: The curriculum successfully shifted mental models. Learners consistently cited the "AI as co-worker" framework as an actionable insight they're now applying.

AI in Action: 16 PMM Labs

A safe sandbox to test AI use cases across LoBs. Sixteen labs built and tested; covering all major Book of Work areas:

GEO Visibility Scorecard

BoW 09: GTM & Field Readiness

PMM Activity Audit

BoW All: Cross-functional assessment

GEO Visibility Test

BoW 09: GTM & Field Readiness

BattleCoach

BoW 03: Market Insights, 07: Commercialization

CI Brief Generator

BoW 03: Market Insights, 09: GTM

Messaging Framework Generator

BoW 01: Messaging & Positioning

Enablement Bundler

BoW 09: GTM & Field Readiness

Content Localization Agent

BoW 02: Storytelling, Partner 08: Content

Launch Planner

BoW 08: Launch & Disclosure

Pricing Rationale Builder

BoW 07: Commercialization, Partner 05: Pricing

Analyst Briefing Simulator

BoW 03: Market Insights

BoW 02: Storytelling, Partner 08: Content

Demo Narrative Builder

BoW 10: Demo

Vision — PMM Co-Pilot: Transform these experimental labs into production-ready AI agents operating within SAP infrastructure (Joule, SAP AI Core) with proper guardrails. The Book of Work becomes an interactive system.

H2 Engagement Plan: From Vision to 500 PMMs

Move the whole org from aware to active to contributing — each phase makes the next one land.

REACH	Everyone hears it	All-hands, exec comms, community hub as front door
ACTIVATE	Many take part	Learning journey + Labs, AMAs, Spotlights, first playbooks
EMBED	It becomes the norm	Playbooks in daily work, champions in every LoB, recognition live

Three-Phase H2 Rollout

Phase	Timing	Key Activities
01 Light the Path	Early H2	All-hands with Eric & Brenda, publish Book of Work, community hub live
02 Activate	Mid H2	Learning journey + Labs cohort, Spotlight Series, first playbooks ship
03 Embed	Late H2	Playbooks adopted cross-LoB, recognition program, measured engagement

Pilot Results Map to ACTIVATE

Metric	Pilot Result	Scales To
Reached (registered)	181 users	500 PMMs
Activated (1+ units)	~80 learners (44%)	Target: 50%+ of 500
Contributing (completed)	7+ learners	Champions network in every LoB

Pilot Outcome: The "first Labs cohort" validated the model with 9.1 NPS, 73% pass rate, and 16 working AI labs. Ready to scale from ACTIVATE to EMBED.

Next Steps

Immediate: Site Migration

Complete Migration Guide prepared — current architecture, database schema, SAP BTP equivalents, phase-by-phase plan. **Ready to hand off to IT.**

In Progress: SuccessFactors Learning

12-unit curriculum being adapted for SuccessFactors — formal tracking, integration with employee learning records, scalable delivery globally.

Phase 03 Vision: Embed

- **Learning** — PMMs complete curriculum for foundational AI-era skills
- **Tools** — AI agents assist with each of the 19 Book of Work areas
- **Guardrails** — All AI-assisted work within approved guidelines
- **Measurement** — Track engagement across all 500 PMMs

Summary

The Future of PMM pilot achieved its objectives under **Pillar 03: Continuous Learning**:

- **Validated demand** — 181 users registered, 53 provided feedback, NPS of 9.1
- **Proved the curriculum** — 73% pass rate, 12 units mapped to Book of Work
- **Built the lab infrastructure** — 16 AI labs covering all major BoW areas
- **Prepared for scale** — Migration guide complete, SuccessFactors in progress

The pilot positions SAP to move from **ACTIVATE** to **EMBED** across all 500 PMMs — with playbooks, recognition, and measured adoption at every step.
